PROFILE INFO

I am a .NET developer with expertise in C#, ASP.NET Core, and MAUI for back-end and mobile application development. Delivering top-notch solutions for clients' diverse needs.

WORK EXPERIENCE

Intern - MEGADEV, Salé

JUN 23 - OCT 23

In this internship, I'm mastering .NET development through hands-on coding, debugging, and collaborative project work, gaining practical skills and contributing effectively to real-world software projects.

Intern - VITI CAR, Salé

MAY 22 - JUN 22

Redevelopment of the agency software to manage rental and vacant vehicles using the new .NET technology with C# language instead of Visual Basic.

PERSONAL PROJECTS

MEGA ENCRYPTION

A software that encrypts your data to ensure the maximum security and makes sure the inability of others to understand its content.

GOLDEN FLOW

An application that utilize Selenium for automating Bitcoin mining. It uses web scraping techniques to extract necessary data and utilize automation to increase efficiency. Developed with C# and Python
